- Visual Studio Code
- IntelliJ IDEA

PROJECTS

Portfolio Website

Tech: *HTML, TailwindCss, JavaScript*

- Built a modern, fully responsive portfolio website with smooth animations and interactive UI.
- Showcased personal projects, technical skills, and contact information.

Weather-API

Tech: *React.js, TailwindCss, Weather API*

- Developed a weather application that fetches real-time weather data using a REST API.
- Displays current weather details based on the searched city with a responsive interface.

Loan-Tracker

Tech: *HTML, CSS, JavaScript, LocalStorage*

- Built a loan management application to track loans, installments, and payment history.
- Used Local Storage to save user data and calculate pending balances.

QR-Generator

Tech: *HTML, TailwindCSS, React.js, JavaScript*

- Created a QR code generator that instantly converts text or URLs into QR codes.
- Implemented input validation with a clean and responsive user interface.

Calculator

Tech: *HTML, CSS, JavaScript*

- Developed a responsive calculator supporting basic arithmetic operations.
- Implemented interactive button controls with accurate real-time calculations.

INTERESTS

- **Web Animation**
- **Java Programming**
- **Frontend Development**
- **Full Stack Development**
- **Learning New Technologies**
